QMS* = Quality Meat Scotland Assured product. This standard of 'Whole chain assurance' ensures that animals have the best possible quality of life on farms and throughout the live supply chain, resulting in the highest quality product reaching the consumer's plate.

Waste Knot^ = Waste Knot came about as a way of getting surplus veg out of farmers' fields and into chefs' kitchens. By purchasing imperfect or surplus veg we are reducing food waste and ensuring sustainability, by using seasonal produce from Red Tractor and LEAF assured farms.
